

Fujikura's Ultra Thin Silicone Rubber Sheets

■ Ultra Thin Silicone Rubber Sheets

Developed with our own technology, Fujikura's ultra thin silicone rubber sheets are excellent in heat resistance and utilized in a wide range of industrial areas such as electronics, etc.

Excellent in heat resistance and insulation

Excellent in weather resistance and insulation, it can be used in the temperature range of -60 to 200°C.

Applications

- Electronic components, rubber packing, masking materials, etc.

Compliant with the regulations for Substances of Environmental Concern

We intentionally avoid the use of Substances of Environmental Concern such as phthalic acids, halogens, etc. to provide products complying with the RoHS (Restriction of Hazardous Substances) Directive.

TECHNICAL DATA

■ Property data ■

	Silicone Rubber Sheets
• Sheet thickness (mm)	0.1mm, 0.2mm, 0.3mm
• Hardness	50
• Tensile strength (MPa)	7
• Elongation (%)	300
• Sheet width (negotiable)	500mm

* Figures listed above do not illustrate the guaranteed values.
