

▶ Superior Blanket for UV Printing

▶ SB 14 Overview

This Product was designed with a proprietary EPDM rubber surface to meet the challenges of the UV, HUV & LED markets. It was formulated to prevent swelling & image so that press operators can spend less time changing blankets consequently becoming more efficient during their production time.

▶ PRODUCT FEATURES

- Superior Ink transfer
- High resistance to UV Ink
- Reduce edge picking
- High durability
- Resists Swelling
- Prevent image retention
- Reduces Piling

▶ TECHNICAL SPECS

Type	Sheetfed
Nominal Thickness	1.98mm
Color	Purple
Roughness	5.0 μm
Hardness	80 Shore A
